Loné Bang

[m.o. D.A.F. Denmark~]

Loné is a professional international astrologer, born in Denmark, now living in Glastonbury, Somerset, U.K.

Loné is a writer, providing forecasts and articles for many local, national and international publications, including 'The Chalice' and the Danish 'Stjernerne' and 'Valravn'; and now also 'on air' on Glastonbury Netradio.

She studied at the Irene Christensen Institute, Copenhagen with some of Denmark's foremost astrologers, including Christian Borup, Sigvard Mahler Dam & Gilbert Tjørnum, and still attends seminars and conferences there.

She is a supporter of Astrologisk Museum, Copenhagen, the first of its kind in the world.

She has been practicing astrology since the mid-eighties, and has run courses for beginners and workshops.

Loné is bi-lingual in English & Danish.

Your birth-chart is the blueprint for your soul's journey through life.

I can describe who you really are as well as what others see. Therefore a correct chart is a useful tool for anyone who wishes to understand themselves better and aims to achieve their fullest potential.

Whenever possible I 'rectify' birth-charts - a method that ensures that your axis, houses, your Ascendant and Midheaven are exact, and that your present influences are active.

For that I will ask you for your date, time and place of birth, plus a minimum of five dates for important events in your life.

During the consultation I will analyze your birth-chart looking at issues such as your personality, emotions, talents, childhood, home, parental influences, education, relationships, career, money, children, leisure, aspirations, sexuality, and spiritual life.

"-your astrology, you know you're brilliant

--- that's your gift, your strength

--- if I needed an astrologer I could trust I'd come to you. "

Viviane de Prince, Belgium

I can offer yearly trends, updates on what is active at this moment as calculated on the basis of your rectified birth-chart.

I can answer one-off questions about events or which direction to take, this is called Horary Technique (this can be written and sent to you).

I also offer horoscopes for children (which cannot yet be rectified) to help parents understand the nature and potential of their children, so as to know how best to support them through their early years.

I can analyze relationships, comparing two birth-charts and creating a composite, advising on strengths and weaknesses in a relationship, and how you can benefit from the differences and find greater happiness together.

"Loné was tutored at the very best institute of Astrology in Denmark, renown for its high standard of professionalism, ethics and quality of teaching.

Lone has analyzed the horoscopes of me and my partner, and what she said about us and our relationship was very true. She is a very accomplished astrologer and she has my warmest recommendations"
